

DIGITAL JOB FAIR

**April 27 -
May 11**
Looking to hire?

We're expanding to another platform to reach potential employees.
Hosting on a Facebook Event & www.dyersville.org

We are making it easy for you:

No booth setup – You won't have to leave your office and job seekers won't have the pressure of others knowing they're looking for a job.

Video – We are **highly encouraging** creating OR submitting a 30 sec –1 min video showcasing what the employee will be doing, your work environment, etc. This can be done with your phone or we have reserved a student who will record & create your video for \$80 + mileage if distance is further than 20 miles.

Job listing – Provide a job listing to go along with your video. Job Title, FT/PT, and details will be highlighted. If you want to put wage, you are welcome to do so to entice candidates.

Resumes sent for quick interview – an email link will be with your job listing for candidates to submit their resumes.

Marketed as a community job destination – We hope to have numerous job opportunities in the area for job seekers to fill. This event will be marketed through social media, local newspaper, radio, Chamber newsletter, email list and area colleges/schools. Please feel free to share the post as we will be tagging the participating businesses. We will conduct social media drawings to entice people to attend the virtual Job Fair.

How event will run - A Facebook Event will be created & marketed on the Chamber's Facebook Page. Each day starting April 1st, 3 Company's job videos will be posted. (this is based on a first come first serve basis). Videos & job postings will also be posted on the Chamber Website. Area schools and colleges will also advertise the event through their normal means of student communication.

Registration, payment, job listing(s) and video **due by April 20th** to kthompson@dyersville.org

Business Name _____

Address/City/State/Zip _____
